

What is CodeRED?

If you have reliable information in an emergency, it is easier to make good decisions. In Clinton County the CodeRED system is used to send important emergency information.

A CodeRED message will tell you:

- What has happened, and where.
- What actions you should take, if any.
- Where to get more information.

CodeRED is NOT used to send severe weather warnings. You can get weather warnings from TV and radio, or with a NOAA Weather Radio.

CodeRED calls come from the number:

1-866-419-5000

When you answer, or your answering machine picks up, you will hear a message giving you important information.

You can call that number back to hear the message again.

Make Sure You Get the Call

If you live in Clinton County and have a landline phone, you may already be in the CodeRED system. You will receive a call on your landline phone when there is an emergency in your area. To be certain, make sure to enroll your numbers!

How to Enroll

To get CodeRED messages on your cell phone, by text message, TTY/TDD, or by email, you can enter that information by going to our website:

www.clinton-county.org

Click the "CodeRED" link on the left side of the page. This will take you to the CodeRED page where you can register and get more information. If you do not have internet access, call the Central Dispatch office at 989-224-5108.

Now you can also get CodeRED on your iOS or Android device. Download the free app and be notified of emergencies in the area—wherever you are.

Playing Back Messages

If the CodeRED message tells you to do something specific, like take shelter or evacuate, follow the instructions that are given carefully.

If you need to hear the message again, you can call:

1-866-419-5000

You can replay the message as many times as you like. Program this number into your contacts so you know when an alert call is being made to your phone.

Privacy

Your contact information will never be given out to anyone else, and will only be used for emergency.
